## Precision pressure gauge, radial bottom, G1/2, 0 - 40,0 bar, Ø160

Kategorija: [Precision pressure gauges](#)

Šifra: **199326RIE**

### Kratek opis

Precision pressure gauge, Connection radial bottom, G 1/2, Goods class 0.6, Measurement range 0 - 40 bar, Ø 160  
Bourdon-tube pressure gauge for precision measurements. for gaseous, liquid, not highly viscous and non-crystallising media which do not attack copper alloys.

### Tehnične Specifikacije

|                                            |                   |
|--------------------------------------------|-------------------|
| Min. sobna temperatura [°C]                | -20               |
| Material Prozessanschluss                  | Brass             |
| Merilni element                            | Copper alloy      |
| Ohišje                                     | CrNi steel        |
| Okvir                                      | CrNi steel        |
| Položaj povezave                           | radial on bottom  |
| Povezava                                   | G 1/2             |
| Prednje steklo                             | Plastic (PMMA)    |
| Premikanje                                 | Brass             |
| Spodnja/Zgornja meja območja               | Positive pressure |
| Stopnja rasti na območju skale - bar [bar] | 0.2               |
| Razred točnosti                            | 0.6               |
| Merilno območje max. bar                   | 40                |
| Max. sobna temperatura [°C]                | 60                |
| Max. temperatura medija [°C]               | 60                |
| Premier [mm]                               | 160               |
